

## MEDITATE DAY AND NIGHT

Ponder each morsel of truth more fully – follow the awareness.  
Do not rush it – let it happen one tiny “byte,” one insight at a time.  
The Eternal is not in a hurry and you must not be either.

Do you ever look up in the sky at night and wonder what is up there? I mean, there is this never-ending universe – right? Perhaps you sense that there must be more to this life than meets the eye.

“Look up at the stars and not down at your feet. Try to make sense of what you see, and **wonder** about what makes the universe exist. Be **curious**.” –Stephen Hawking-

## WONDER WISELY

PSALM 19:1-6
